

Michael Romer(Director)

Mike has more than 5 years Executive management and 10 years business management experience. He owned various businesses in the past 10 years such as beef abattoir, refrigeration repairs, fish & chips store. His passion lies more in innovation, technical/engineering related works and maintenance. He also works as Technical & Operations Director of Ikusasa Green co-owned with Tami and held the role of Managing Director for a year. As passionate technical person he also leads the design and innovation unit of AET Africa responsible for all innovation designs, development and manufacturing of prototypes. His flagship designs includes the Heat Raider and Hot Spot. He holds post matric certificates in Refrigeration and Cooling, Emergency response and technical drawing. He thrives in spaces where he can deconstruct and reconstruct things through innovative manufacturing approach.

My Hobbies: cooking, game hunting, working with his hands developing new designs/prototypes
